Directions

Important: Read ALL instructions on pamphlet inside box.

Do not use on pets or to treat pubic or body lice.

Adults and children 2 years and older:

Treat to kill lice and eggs (nits):

- Start with DRY hair
- Separate hair into 3-4 sections with clips.
- Shake can well.
- Part a section of hair into a 1-inch section, focus the nozzle tip on the scalp and apply a generous amount of mousse along the length of the hair
- Pay special attention to nape of the neck and behind the ears
- **Saturate all hair and scalp, massaging the mousse to break down the foam, thoroughly soaking the hair. To be effective all lice and nits must be contacted. Depending on the length of hair, the full can may be needed.**
- Repeat process until all sections of hair are saturated and wait 15 minutes.

Remove lice and eggs (nits):

- Although dead, nits remain attached to the hair.
- After 15-minute treatment, use enclosed comb, to remove dead lice and nits from the wet hair.
- Working with a 1-inch section of hair, insert the comb against the scalp, and pull through to the end, wiping on a disposable paper towel after each stroke.
- If hair dries, apply more product to ease combing.
- Repeat combing if necessary
- Shampoo and towel dry hair.

Vamousse may be repeated as needed. Children under 2 years: ask a doctor.

Vamousse Lice Defense Daily Shampoo:

Adults and children 2 years and older:

- Apply a generous amount of shampoo to wet hair, work into a lather and massage into scalp. Leave shampoo in hair for at least 3 minutes. Rinse.
- For defense against head lice infestation, use daily for at least 10 to 14 days to kill any lice that may have hatched.
- For an active head lice infestation, use Vamousse Lice Treatment before using this shampoo

Children under 2 years: ask a doctor/

Product may be used as often as needed.
