PRINCIPAL DISPLAY PANEL

Recommended Steps for Preparing Before Tattooing:

- Cleanse, rinse, and dry the treated area with warm water.
- Apply a thick numbing cream onto the treated area, ensuring the cream covers the tattoo area and its immediate surroundings.
- When the treated area slightly warms up, remove the cream and remain for 10 minutes.
- Repeat the above steps until the skin is numb. Wait for an additional 10 minutes for peak numbness.
- Begin the procedure.

Directions:

- For adults: • Cleanse, rinse, and dry the affected area with warm water. • Apply a thick numbing cream onto the tattooed area. • Apply up to 6 times a day.
- For children under 12 years of age: • Consult a doctor for guidance.

Warnings:

- Do not use on children, pregnant women, or on the face.
- Do not use on broken skin, sunburned skin, or skin with a rash.
