

CRAMERGESIC- menthol, methyl salicylate ointment
Cramer Products Inc

Disclaimer: Most OTC drugs are not reviewed and approved by FDA, however they may be marketed if they comply with applicable regulations and policies. FDA has not evaluated whether this product complies.

Drug Facts

<i>Active Ingredients</i>	<i>Purpose</i>
Menthol 1.9%	Counterirritant
Methyl Salicylate 13.7%	Counterirritant

Uses

For the temporary relief of minor aches and pains of muscles and joints associated with strain, sprains, bruises, simple backache, and arthritis. Combined with stretching and calisthenics, Cramergesic assists in the warm-up process, especially in cool, damp weather. For longer-lasting relief and to protect clothing, cover with cloth; hold in place with an elastic wrap.

Warnings

For external use only.

Use only as directed. In case of accidental ingestion, seek professional assistance or contact a Poison Control Center immediately. Do not apply to wounds or damaged skin. Avoid contact with the eyes. If condition worsens, or if the symptoms persist for more than 7 days, or clear up and occur again within a few days, discontinue use and consult a doctor. Consult a doctor before administering to children, including teenagers, with chicken pox or flu.

Directions

Gently massage into painful area. Adults and children 6 years of age and older: apply to affected area not more than 3 - 4 times daily. Children under 6 years of age: consult a doctor. To apply Cramergesic pack: spread 1/8 " layer of Cramergesic over area, cover with a cloth, and secure with an elastic wrap. Do not bandage tightly.

Other information

This product is intended to and will cause mild skin irritation. Discontinue use if excessive irritation of skin develops. Use with caution on fair skin.

Inactive Ingredients

Lanolin, Paraffin, Petrolatum
