Dermatouch Acnecare Pads

Active ingredient Purpose

Salicylic Acid (2.0%).....Acne Treatment

Purpose

Acne Treatment

For treatment of acne

Warnings

For external use only. Using other topical acne medications at the same time or immediately following use of this product may increase dryness or irritation of the skin. If this occurs, only one medication should be used unless directed by a doctor. Sensitivity Test for a New User. Apply product sparingly to one or two small, affected areas during the first 3 days. If no discomfort occurs, follow the steps stated in directions.

Keep out of reach of children. In case of accidental ingestion, get medical help or contact a Poison Control Center right away.

When using this product

- Skin irritation and dryness is more likely to occur if you use another topical acne medication while using this product. If irritation occurs, use only one topical acne medication at a time.

Directions

Cleanse the skin thoroughly before applying medication. Use the pad to wipe the entire affected area one to three times daily. Repeat with a clean pad as necessary to remove remaining traces of dirt. Because excessive drying of the skin may occur, start with one application daily, then gradually increase to two or three times daily if needed or as directed by a doctor. If bothersome dryness or peeling occurs, reduce application to once a day or every other day.
