Tazarodex Cream Plaque Psoriasis & Acne - Directions

Directions:

Use on affected areas. Make sure the affected area is dry before use. If you are using a moisturizer, use Tazarodex Cream at least 1 hour after applying the moisturizer to the affected area. Avoid sun exposure after applying Tazarodex Cream as it will make your skin more sensitive to UV rays for 6 hours. Spread it evenly and avoid excessive application. For best results, use only nights or as directed by a doctor.

Tazarodex Cream Plaque Psoriasis & Acne

Active ingredient:

Tazarotene 0.1%

Tazarodex Cream Plaque Psoriasis & Acne

Ask a doctor before use if

You have a history of skin sensitivity to topical products or have any medical conditions that affect your skin.

Tazarodex Cream Plaque Psoriasis & Acne

Do not use:

- On children under 12 years of age, pregnant or breastfeeding women, or individuals with eczema or retinoid hypersensitivity.
- For prolonged periods of time without consulting a doctor.
- In or around the rectum, genital area, or on the groin unless advised by a doctor.
- On damaged or irritated skin not caused by acne or psoriasis
