* The letters 'HPUS' indicate that the components in this product are officially monographed in the Homœopathic Pharmacopœia of the United States.

Inactive Ingredients

Cedar Leaf Oil, Lemon Oil, Tea Tree Oil, Tarragon Oil, Clove Oil, Thyme oil.

Directions

Moisten a cotton swab (or Q-tip) with a few drops, dab moistened swab directly to warts 3 times each day. If possible, secure a band-aid over the wart/s after applying treatment. It is important to note that an apparent increase in the size of the wart often signals the beginning of the healing process. Those parts of the wart hidden beneath the skin are rejected by the healing tissue and are pushed outward. Warts usually flake away after 2-5 weeks of treatment when these directions are followed. Cluster warts may take longer to treat before desired results are achieved. If you experience irritation from use, wash area with warm soapy water before further applications and apply less product. If irritation continues, discontinue use. It is recommended to wash the area with warm soapy water before each application.

Warnings

This product does not prevent the spread of warts. If problem persists, see your doctor.

Some individuals may be sensitive to tea tree or other oils. Begin with a small drop to determine if the product causes any increased redness or irritation and discontinue use if it irritates your skin.

If you are pregnant or breast-feeding, ask a health professional before use.

Do not use this product on irritated skin.

Keep out of the reach of children. If accidental ingestion, get medical help or contact a Poison Control Center. For external use only. Do not apply to the eyes. Keep all medicines out of the reach of children.
