

PM TOOTHACHE RELIEF- benzocaine cream CVS

5820625 CVS Health 4x Medicated Cream PM

For the temporary relief of pain due to toothaches. To help protect against infection of minor oral irritation.

ammonium glycyrrhizate, chamomile, flavor, mineral oil, PEG-8, PEG-77, sodium saccharin, sorbic acid, titanium dioxide

Cut open tip of tube on score mark. Adults and children 2 years of age and older: apply to affected area up to 4 times daily or as directed by a dentist or doctor. Children under 12 years of age should be supervised in the use of this product. Children under 2 years of age: do not use.

Belzalkonium Chloride 0.13% Oral antiseptic

Benzocaine 20% Oral pain reliever

Methol 0.26% Oral pain reliever

Zinc chloride 0.15% Oral astringent

Keep out of reach of children. In case of overdose, get medical help or contact a POison Control Center right away.

Do not use if tube tip is cut prior to opening. This preparation is intended for use in cases of toothache, only as a temporary expedient until a dentist can be consulted. Do not use continuously. This formula will stay in place for extended duration of relief. Avoid using toothpaste or drinking soft drinks or fruit juices for at least one hour after applying.

Methemoglobinemia warning: use of this product may cause methemoglobinemia, a serious condition that must be treated promptly because it reduces the amount of oxygen carried in blood. This can occur even if you have used this product before. Stop use and seek immediate medical attention if you or a child in your care develops: pale, gray, or blue colored skin (cyanosis), headache, rapid heart rate, shortness of breath, dizziness or lightheadedness, fatigue or lack of energy.
