Guaifenesin 200 mg

**Purpose**

Dextromethorphan hydrobromide Cough suppressant

Guaifenesin Expectorant

**Uses**

For the temporary relief of cough due to the common cold. Helps loosen phlegm (mucus) and thin bronchial secretions to make coughs more productive.

**WARNINGS**

Enter section text here

**Do not use** this product

■if you are now taking a prescription monoamine oxidase inhibitor (MAOI) (certain drugs for depression, psychiatric or emotional conditions, or Parkinson's disease), or for 2 weeks after stopping the MAOI drug. If your prescription drug contains an MAOI, ask a doctor or pharmacist before taking this product.

■for a persistent or chronic cough such as occurs with smoking, asthma, or emphysema.

■if cough is accompanied by excessive phlegm (mucos) unless directed by a doctor.

A persistent cough may be a sign of a serious condition. If cough persists for more than 1 week, tends to recur, or is accompanied by fever, rash, or persistent headache, consult a doctor.

**Keep out of reach of children.** In case of accidental overdose, get medical help or contact a Poison Control Center right away.

**If pregnant or breast-feeding**, ask a health professional before use.

**Directions**

■Adults and children 12 years of age and over: Take 10mL every 6 - 8 hours, not to exceed 30mL in 24 hours, or as directed by a doctor.

■Children under 12 years: Ask a doctor.

**Inactive ingredients**

alcohol, beta-cyclodextrin, butylparaben, calcium chloride, caramel, citric acid, flavor, glycyrrhiza (licorice) extract, propylparaben, sodium benzoate, sodium saccharin, sugar, water.
