Clunia® EasyDent Gel

Active Ingredient: Zinc gluconate 1.5 %

Also contains deionized water, carboxymethylcellulose, taurine, methylparaben, propylparaben, and FD&C Blue 1.

For dogs, cats small mammals, exotics and horses.

Characteristics:

- For use in dogs, cats, small mammals, exotics and horses
- Highly accepted oral gel of neutral pH.
- Alcohol and flavor free.
- Stimulates gum healing zinc gluconate participates in collagen production and recovery of damaged tissues.
- Neutralizes mouth odors: taurine chelates sulfur compounds that produce halitosis
- Mucoadhesive properties for prolonged action
- Does not stain enamel
- Easy application: can be used with or without brushing

Recommended use:

- Cleans and refreshes oral cavity and teeth for optimal oral health.
- Periodontal problems.
- Gingival healing: oral wounds and lacerations.
- Before and after professional dental procedures to extend its benefits
- Helps reduce plaque formation.
- Controls halitosis from teeth and gums.
- Helps maintain optimal oral health and overall wellbeing to ensure animal can properly chew throughout life and reduce secondary health problems.

Directions for use:

Apply gel to both sides of the upper gums.

Dose: 1 pea size drop (about 0.5 ml) for animals up to 20 lbs, increase the dosage for medium and larger animals. Most animals will accept direct use of the built-in applicator. To maximize acceptance in smaller animals, deposit gel on the index finger, swab or toothbrush and apply to gums. Repeat daily for maximum effectiveness.

The natural cleansing action of the mouth will distribute the gel to the most remote areas.

The oral health of the animal should be regularly assessed by your veterinarian.

Cautions:

For animal use only. Store the container tightly closed, in a cool, dry place, protected from sunlight and out of reach of children and animals. Store at room temperature. Protect from freezing.

VetNova

Ingrediente Activo: Gluconato de Zinc 1.5 %
También contiene: agua, carboximetilcelulosa, taurina, metilparabeno, propilparabeno, FD&C Blue 1.

Para perros, gatos, exóticos y caballos.

Características:

- Gel oral de alta aceptación y pH neutro.
- Sin alcohol ni sabor.
- Estimula la cicatrización de las encías: el gluconato de zinc participa en la producción de colágeno y en la recuperación de los tejidos dañados.
- Neutraliza el mal olor: la taurina quela los compuestos azufrados que producen la halitosis.
- Con propiedades mucoadhesivas para una acción más prolongada.
- No mancha el esmalte.
- Fácil aplicación: se puede utilizar con o sin cepillado.

Uso recomendado:

- Limpia y refresca la cavidad oral y los dientes para una salud bucal óptima.
- Problemas periodontales.
- Cicatrización gingival: heridas orales y laceraciones.
- Antes y después de procedimientos dentales profesionales para alargar sus beneficios.
- Ayuda a reducir la formación de placa.
- Controla la halitosis procedente de dientes y encías.
- Ayuda a mantener una salud oral óptima y bienestar general para garantizar que el animal pueda masticar adecuadamente durante toda la vida y reducir los problemas de salud secundarios.

Modo de empleo:

Aplicar a ambos lados de las encías superiores.

Dosis: 1 gota del tamaño de un guisante (aproximadamente 0.5 ml) para animales de hasta 20 libras; aumentar para animales de mayor tamaño. La mayoría de los animales aceptarán el uso directo con el aplicador incorporado. Para maximizar la aceptación en animales más pequeños, depositar el gel en el dedo índice, un hisopo, una gasa o cepillo de dientes y aplicar en las encías. Repetir diariamente para obtener la máxima eficacia.

La acción limpiadora natural de la boca distribuirá el gel a las zonas más remotas. La salud oral del animal debe ser evaluada regularmente por su veterinario.

Precauciones:

Solo para uso animal. Guardar el recipiente bien cerrado, en un lugar fresco y seco, protegido de la luz solar y fuera del alcance de niños y animales. Conservar a temperatura ambiente. Proteger contra la congelación.
