

BLISS REPUBLIC LIDOCAINE NUMBING CREAM- lidocaine numbing cream cream

Sargass Group Limited Liability Company

BLISS REPUBLIC LIDOCAINE NUMBING CREAM

Active Ingredient(s)

LIDOCAINE 5% _____ Local Anesthetic

Purpose

Topical Anesthetic

Use

For temporary relief of local and anorectal discomfort, itching, pain, soreness, or burning associated with anorectal disorder or inflammation.

Warnings

(For external use only)

Before usage:

Avoid using this product if you have a known allergy to lidocaine.

Do not use while pregnant or breastfeeding.

In case of accidental overdose, seek immediate medical assistance or contact the Poison Control Center.

When using this product:

Adhere to the recommended daily dosage unless otherwise directed by a doctor. Some individuals with heightened sensitivity might experience allergic reactions to specific ingredients in this product.

Do not insert this cream into the rectum using fingers, applicators, or any medical devices.

Keep away from children. Avoid contact with eyes. In case of accidental ingestion, seek medical attention immediately.

Discontinue use and consult a doctor if:

The treated symptoms show no signs of improvement, or if redness, irritation, swelling, pain, or other symptoms manifest or worsen. Seek immediate medical attention in such cases.

Directions

Adults: Before applying this product, gently dry the application area by patting or blotting it with toilet tissue or a clean, soft cloth.

Apply up to 6 times daily. Children under 12 years: consult a doctor.

BLISS REPUBLIC

**LIDOCAINE
NUMBING CREAM**

Topical Anesthetic Cream with
Emu Oil, Arnica and Vitamin E

30 ml e 1oz

DRUG FACTS (CONTINUED):
Keep away from children. Avoid contact with eyes.
In case of accidental ingestion, seek medical attention immediately.
Additional Information:
• Store at room temperature.
• Avoid direct sunlight.
• Refrain from using if packaging has been damaged or is missing.
Inactive Ingredients:
• Carbomer 934, Arnica, Emu oil, Lecithin (Soybean), Propylene Glycol, Tocopheryl Acetate (Vitamin E), Benzyl Alcohol, Menthol, Water, Floral Scent.
Directions:
• Adults: Before applying this product, gently dry the application area by patting or blotting it with toilet tissue or a clean, soft cloth. Apply up to 6 times daily. Children under 12 years: consult a doctor.
Notice:
• **Alcohol Avoidance:** Refrain from consuming alcohol 24 hours before your skin treatment. Alcohol consumption may reduce the effectiveness and duration of the product used during the skin procedure.
• Please note that the duration of the numbing effect may vary based on factors like temperature and individual skin type.

DRUG FACTS:
Active Ingredient: LIDOCAINE 5% **Purpose:** Local Anesthetic
For temporary relief of local and anorectal discomfort, itching, pain, soreness, or burning associated with anorectal disorder or inflammation.
Warning (For external use only)
Before usage:
• Avoid using this product if you have a known allergy to lidocaine.
• Do not use while pregnant or breastfeeding.
• In case of accidental overdose, seek immediate medical assistance or contact the Poison Control Center.
When using this product:
• Adhere to the recommended daily dosage unless otherwise directed by a doctor.
• Some individuals with heightened sensitivity might experience allergic reactions to specific ingredients in this product.
• Do not insert this cream into the rectum using fingers, applicators, or any medical devices.
Discontinue use and consult a doctor if:
• The treated symptoms show no signs of improvement, or if redness, irritation, swelling, pain, or other symptoms manifest or worsen. Seek immediate medical attention in such cases.

ULTIMATE NUMBING EXPERIENCE.
Pre-procedure:
Perform a spot test a day before your scheduled skin procedure. Apply a small amount of the cream to a clean and limited area for 10-20 minutes to check for any adverse reactions, especially if you have sensitive skin.
Recommended steps:
1. Cleanse and exfoliate the intended area with soap and water to remove dirt and dead skin. Ensure dry skin before applying the cream.
2. Apply a generous 2 mm-thick layer of numbing cream to the specified area without rubbing it in. Ensure the cream covers the intended area and its immediate surroundings.
3. Wrap the creamed area securely with cling film, ensuring a tight seal. Keep the cream and wrap in place for 40-60 minutes.
4. Take off the plastic wrap and gently wipe off any extra cream. Wait an additional 15 minutes for the maximum numbness effect to be reached. Begin the procedure.
