**REFILL INSTRUCTIONS**

1. Remove old box from tabbed grid by slightly squeezing the front of box and pull straight out.
2. Insert the new product box into the grid with the removable panel facing the front, pushing it past the tabs, locking it into place.
3. Remove the upper half of the box front panel by hooking your finger into the hole, and pulling back. This will tear along the perforated edge and give access to the first aid product.
