

**60 SECOND TASTE MINT- topical apf fluoride gel gel**  
**Pascal Company, Inc.**

*Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, [click here](#).*

-----

**Contains**

Active Ingredient: 1.23% w/w fluoride ion from 2.72% sodium fluoride

**Contraindications**

Contraindicated in individuals who are hypersensitive to fluoride.

**Warnings and Precautions**

Keep out or reach of children. For topical intraoral use only. For professionally applied, in office fluoride treatment only.

Not for system treatment. Do no swallow.

Do not use on patients with an allergy to fluoride.

60 Second Taste contains artificial color and flavor; confirm that no known patient allergies exist. Marshmallow and Chocolate Vanilla are dye free and contain no artificial colors.

Special care should be used when administering to children under 6 years of age so that gel is not swallowed.

Contact with abraded or sensitive oral tissue may produce discomfort.

If more than in ordinarily used for treatment is swallowed, administer calcium such as milk and contact your local Poison Control Center immediately.

**Dosage and Directions for Use**

Usual dosage is approximately 2.75 - 9 grams of 60 Second Taste per dual arch treatment depending on tray size.

Shake well before use

1. After prophylaxis remove excess fluid from teeth.
2. Fill applicator tray 1/3 full with gel.
3. Insert filled tray into patient's mouth and instruct to bite down gently for one minute, or up to four minutes.
4. After treatment time is completed, remove tray and have patient expectorate residual gel.
5. For maximum benefits for the prevention of caries, instruct patient not to rinse, eat or drink for 30 minutes.

Repeat treatment at least once or twice a year. For patients with rampant or active caries, repeat treatment once or twice every six months.

If contents have become frozen, warm to room temperature and shake well before using.
