

DELUXE EAR WASH SYSTEM- carbamide peroxide
Walgreens

Otix Ear wax Removal System, Ear wax & Bulb

Drug Facts

Active ingredient

Carbamide peroxide 6.5%

Purpose

Earwax removal aid

Uses

for occasional use as an aid to soften, loosen, and remove excessive earwax

Warnings

For use in the ear only

Ask a doctor before use if you have

- ear drainage or discharge
- ear pain
- irritation, or rash in the ear
- dizziness
- an injury or perforation (hole) of the ear drum
- recently had ear surgery

When using this product

- avoid contact with the eyes

Stop use and ask a doctor if

- you need to use for more than 4 days
- excessive earwax remains after use of this product

Keep out of reach of children.

If swallowed, get medical help or contact a Poison Control Center right away.

Directions

FOR USE IN THE EAR ONLY

Adults and children over 12 years of age:

- Tilt head sideways and place 5 to 10 drops into ear
- Tip of applicator should not enter ear canal
- Keep drops in ear for several minutes by keeping head tilted or placing cotton in the ear
- Use twice daily for up to 4 days if needed, or as directed by a doctor
- Any wax remaining after treatment may be removed by gently flushing the ear with warm water, using the Deluxe Ear Washer
- **Children Under 12 years:**consult a doctor

Other information

- Avoid exposing bottle to excessive heat and direct sunlight
- Store bottle in the outer carton
- Keep cap in bottle when not in use
- Product foams on contact with earwax due to release of oxygen. There may be an associated crackling sound.
- Do not use if tamper-evident safety seal is broken or missing

Inactive ingredients

citric acid, glycerin, propylene glycol, sodium citrate, sodium lauryl sulfate, water, tartaric acid

Walgreens Deluxe Ear Wash System

- Deluxe pH conditioning ear rinse
- For use in the ear only

Easy-to-Use System:

Prior to use, read complete instructions and warnings inside and on box. Keep box and instruction sheet inside box for future reference.

STEP 1: PREPARE. Place several drops of Earwax Removal Aid Drops in each ear and wait 5-10 minutes. Use ear plugs to keep drops in ear.

STEP 2: WASH. Fill the bottle with very warm clean water and attach the sprayer. Twist the disposable tip onto the nozzle. Place ear basin under the ear and rapidly pump fluid into the ear. Repeat as needed to remove all wax.

STEP 3: RINSE. Empty 1 packet of pH Conditioning Ear Rinse into bottle and fill with very warm clean water. Rinse ears with conditioning solution. Discard tip and any remaining solution after use.

WARNINGS: Do not use in case of fever, discharge, in the presence of tympanic tubes (tubes in the ears), or if the eardrum is perforated. If you are not sure of perforation, consult a physician before using this device. Ear washing should not be painful. If you feel pain in your ears while washing, STOP! And consult a doctor. Always use very warm water (not hot or cold) on a seated person. Dizziness may occur, especially if you use cold water. For adults and children 12 years and older. For children under 12, consult a doctor before using the Deluxe Ear Wash System.

CAUTION: CHOKING HAZARD - THIS KIT CONTAINS SMALL PARTS. KEEP OUT OF REACH OF CHILDREN.
