Lifts, replumps & targets wrinkles day cream SPF 15
All skin types

This day cream helps visibly lift and plump mature skin impacted by hormonal changes due to the natural ageing process. Skin is protected and looks radiant, even and smoothed.

- Global anti-ageing action: a powerful ingredient duo based on organic hursungana extract and a new organic extract from gorse, helps intensely replenish skin. Together these provide a visible 'lift' effect and help visibly fight skin slackening. Wrinkles are visibly minimized; skin appears plump and firmer.
- Targets dark spots and promotes an even complexion thanks to a combination of a derivative of vitamin C and organic desert date extract, skin appears more luminous.
- Protection & hydration: vegetal squalene helps revitalize the skin during the day and Broad Spectrum SPF 15 offers protection from the harmful effects of UV rays.
