

**STERILE SALINE- sodium chloride injection, solution
MWI (VetOne)**

Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, click here.

Sterile Saline

INDICATIONS:

For use in replacement therapy of sodium, chloride and water which may become depleted in many diseases. Because this solution is isotonic with body fluids, it may also be used as a solvent or diluent for antibiotics and other pharmaceuticals and biologicals where compatible, and for washing mucous membranes and other tissue surfaces.

DOSAGE AND ADMINISTRATION:

Warm to body temperature and administer slowly by intravenous or subcutaneous injection. The amount and rate of administration must be judged by the veterinarian in relation to the condition being treated and the clinical response of the animal, being careful to avoid overhydration. When used as a solvent or diluent for pharmaceuticals and biologicals, follow manufacturer's directions.

Keep out of reach of children.

For animal use only.

CAUTION:

Federal law restricts this drug to use by or on the order of a licensed veterinarian.

COMPOSITION:

Each 100 mL of sterile aqueous solution contains:

Sodium Chloride0.9 g

Milliequivalents per liter

Cations:

Sodium154 mEq/L

Anions:

Chloride.....154 mEq/L

Total osmolarity is 308 milliosmoles per liter.

CAUTION:

This product contains no preservatives. Use entire contents when first opened. Discard any unused solution.

STORAGE:

Store between 15 degrees and 30 degrees C (59 degrees - 86 degrees F).
