In 2017, in order to sum up the more than ten years of engaging in the beauty and health industry, Ms. Guo Man, the founder, decided to stop all work and travel alone.

Along the way, she pondered the past, the nature of health and the current state of the market. Thinking more and more confused, until into the mountains - Qiling mountains.

Standing on the top of the Qiling Mountains, looking at the loess slope on one side and the wild and lush side of Berlin on the other side, the two completely opposite scenery are integrated here, natural and vivid. At this moment, the answer to nature and life has appeared in front of her from the earth and the mountains and rivers: everything is natural.

Ms. Guo Man since then determined: to the natural method of nourishing the source of power, treat customers like respect heaven and earth.

After more than two years, Ms. Guo Man searched for a cure in the ancient classics like smoke and sea, and repeatedly returned to the Qiling Mountains to seek local high-quality raw material resources, and created the "Gong Fu Head soup" head health brand. Its plant extraction hair care products combined with the original "eight sections of jin technique", care for hair while nourishing head skin, improve sleep quality, delay head skin aging. Just to make life more dynamic, let life more wonderful!
