**Pivodine™ Scrub
(Povidone Iodine 7.5%)
Antiseptic**

Microbicide Solution Sudsing Skin Cleanser

For veterinary use only.
Keep out of reach of children.
For external use only.

INDICATIONS:

A germicidal cleanser for preoperative and postoperative skin washing, and shampoo for bacterial and fungal skin infections in animals. Used routinely, it also helps prevent infection in cuts, scratches, abrasions, and burns. Non-staining to skin, hair, and natural fabrics.

DIRECTIONS FOR USE:

SURGICAL HAND SCRUB: Wet hands with water. Spread approximately 5 mL (1 teaspoonful) of scrub over both hands and forearms. Without adding water, scrub thoroughly for 2½ to 3 minutes. Use a sponge, if desired. Clean thoroughly under fingernails. Add a small amount of water and develop copious suds. Rinse thoroughly under running water. Repeat entire procedure using another 5 mL of scrub.

ANTISEPTIC HAND WASH: Wet hands with water and pour approximately 5 mL (1 teaspoonful) of scrub on hands. Rub hands vigorously together for at least 15 seconds, covering all surfaces. Rinse and dry with a disposable towel.

PREOPERATIVE SKIN PREPARATION: After the surgical area is clipped, wet with water. Apply scrub (1 mL is sufficient to cover an area of 20 to 30 square inches), develop lather, and scrub thoroughly for approximately 5 minutes. Rinse using sterile gauze saturated with water. The area may then be painted with VetOne® Pivodine™ Scrub and allowed to dry.

ACTIVE INGREDIENT:

Povidone Iodine (0.75% Titratable Iodine).

INACTIVE INGREDIENTS:

Purified Water, Ammonium Nonoxynol-(n) Sulfate, Disodium Phosphate, Hydroxyethyl Cellulose, Citric Acid, Glycerin.

STORAGE:

Store at controlled room temperature between 15°–30°C (59°–86°F). Keep container tightly closed when not in use.

AVOID STORING AT EXCESSIVE HEAT.

AVOID STORING AT EXCESSIVE HEAT.

WARNING: For external use only. Do not use this product in the eyes or on food-producing animals.

When using this product, prolonged exposure to wet solution may cause irritation or, rarely, severe skin reactions. In preoperative prepping, avoid “pooling” beneath the animal. Stop use and ask a doctor or veterinarian if irritation and redness develops or in rare instances of local irritation or sensitivity.

If swallowed, get medical help or contact a Poison Control Center right away.
