

INFANTS PAIN AND FEVER CHERRY FLAVOR- acetaminophen suspension Genexa Inc.

Infants' Pain & Fever Cherry Flavor

Drug Facts

Active ingredient

(in each 5 mL)

Acetaminophen 160 mg

Purpose

Pain reliever/fever reducer

Uses

temporarily reduces fever and relieves minor aches and pains due to:

- the common cold
- headache
- toothache
- flu
- sore throat

Warnings

Liver warning: This product contains acetaminophen. Severe liver damage may occur if your child takes

- more than 5 doses in 24 hours, which is the maximum daily amount
- with other drugs containing acetaminophen

Allergy alert: acetaminophen may cause severe skin reactions.

Symptoms may include:

- skin reddening
- blisters
- rash

If a skin reaction occurs, stop use and seek medical help right away.

Sore throat warning: if sore throat is severe, persists for more than 2 days, is accompanied or followed by fever, headache, rash, nausea, or vomiting, consult a doctor promptly.

Do not use with any other drug containing acetaminophen (prescription or nonprescription). If you are not sure whether a drug contains acetaminophen, ask a doctor or pharmacist.

Ask a doctor before use if your child has liver disease

Ask a doctor or pharmacist before use if your child is taking the blood thinning drug warfarin

When using this product do not exceed recommended dose (see overdose

warning)

Stop use and ask a doctor if

- pain gets worse or lasts more than 5 days
- fever gets worse or lasts more than 3 days
- new symptoms occur
- redness or swelling is present

These could be signs of a serious condition

Keep out of reach of children.

Overdose warning: In case of overdose, get medical help or contact a Poison Control Center right away (1-800-222-1222). Prompt medical attention is critical even if you do not notice any signs or symptoms.

Directions

- **this product does not contain directions or complete warnings for adult use**
- **do not give more than directed (see overdose warning)**
 - **SHAKE WELL before each use**
 - mL = milliter
 - find the right dose on chart below. If possible, use weight to dose; otherwise, use age.
 - push air out of syringe. Insert syringe tip into the bottle opening
 - flip bottle upside down. Pull white part of syringe to the correct dose
 - dispense liquid slowly into the child's mouth, toward inner cheek
 - repeat dose every 4 hours while symptoms last
 - do not give more than 5 times in 24 hours
 - replace cap tightly to maintain child-resistant packaging

Attention: use only enclosed syringe specifically designed for use with this product. Do not use any other dosing device.

Weight	Age	Dose
under 24 lbs	under 2 years	ask a doctor
24-35 lbs.	2-3 years	5 mL

Other information

store between 20-25°C (68-77°F)

do not refrigerate

People Over Everything.

We think you should feel good about what makes you feel better. That's why we make medicine with the same active ingredients you need, but without the artificial ones you don't. It's what people deserve.
