

SKIN TAG REMOVER- salicylic acid liquid
Dongkou County Hecheng Network Technology Co., Ltd.

Skin Tag Remover

SALICYLIC ACID 10%

For the removal of genital, plantar, common, and flat warts. The common wart is easily recognized by the rough "cauliflower-like" appearance of the surface. The plantar wart is recognized by its location only on the bottom of the foot, its tenderness and the interruption of the footprint pattern.

Keep out of reach of children.

For the removal of genital, plantar, common, and flat warts. The common wart is easily recognized by the rough "cauliflower-like" appearance of the surface. The plantar wart is recognized by its location only on the bottom of the foot, its tenderness and the interruption of the footprint pattern.

For external use only.

Keep away from fire and flame

Wash the affected area. May soak the wart in warm water for 5 minutes. Dry area thoroughly. Using the applicator (cotton swab), apply a layer of ointment to sufficiently cover each wart. Allow it to fully absorb and cover it with a bandage as needed. Repeat this procedure once or twice daily as needed (until the wart is removed) for up to 12 weeks.
