

CLUNIA EASYDENT- zinc gluconate liquid **Vetnova Animal Health LLC**

Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, click here.

Clunia® EasyDent Gel

Active Ingredient: Zinc gluconate 2%

Also contains: deionized water, **taurine (1%)**, **xanthan gum**, methylparaben, propylparaben, FD&C Blue 1.

For dogs, cats, small mammals, exotics and horses.

Characteristics:

- Highly accepted oral gel of neutral pH.
- Alcohol and flavor free.
- Stimulates gum healing: **zinc gluconate** participates in collagen production and recovery of damaged tissues.
- Neutralizes mouth odors: **taurine** chelates sulfur compounds that produce halitosis.
- Mucoadhesive properties for a prolonged action.
- Does not stain enamel.
- Easy application: can be used with or without brushing.

Recommended use:

- Cleans and refreshes oral cavity and teeth for optimal oral health.
- Periodontal problems.
- Gingival healing: oral wounds and lacerations.
- Before and after professional dental procedures to extend its benefits.
- Helps reduce plaque formation.
- Controls halitosis from teeth and gums.
- Helps maintain optimal oral health and overall wellbeing to ensure animal can properly chew throughout life and reduce secondary health problems.

Directions for use:

For Small Animals (up to 20 lbs): Apply 1 pea-sized drop (about 0.5 ml) on each side of the upper gums.

For Medium and Large Dogs, and Horses: Increase the dose as needed, depending on the size of the animal. The natural cleansing action of the mouth will help distribute the gel to the areas harder to reach. For optimal results, apply daily and avoid offering water or food 30 minutes before and after application.

Application Tips: Most pets will allow you to apply the gel directly to the gums using your index finger. Alternatively, you can apply the gel to the outer lips or to the paws and they will lick it off from these areas.

Regularly assess your pet's oral health with your veterinarian.

Cautions:

For animal use only. Store the container tightly closed, in a cool, dry place, protected from sunlight and out of reach of children and animals. Store at room temperature. Protect from freezing.

ADVANCED
FORMULA

Ingrediente Activo: Gluconato de Zinc 2%
También contiene: agua, **taurina** (1%), **goma xantana**,
metilparabeno, propilparabeno, FD&C Blue 1.

Para perros, gatos, exóticos y caballos.

Características:

- Gel oral de alta aceptación y pH neutro.
- Sin alcohol ni sabor.
- Estimula la cicatrización de las encías: el **gluconato de zinc** participa en la producción de colágeno y en la recuperación de los tejidos dañados.
- Neutraliza el mal olor: la **taurina** quela los compuestos azufrados que producen la halitosis.
- Con propiedades mucoadhesivas para una acción más prolongada.
- No mancha el esmalte.
- Fácil aplicación: se puede utilizar con o sin cepillado.

Uso recomendado:

- Limpia y refresca la cavidad oral y los dientes para una salud bucal óptima.
- Problemas periodontales.
- Cicatrización gingival: heridas orales y laceraciones.
- Antes y después de procedimientos dentales profesionales para alargar sus beneficios.
- Ayuda a reducir la formación de placa.
- Controla la halitosis procedente de dientes y encías.
- Ayuda a mantener una salud oral óptima y bienestar general para garantizar que el animal pueda masticar adecuadamente durante toda la vida y reducir los problemas de salud secundarios.

Modo de empleo:

Animales pequeños (hasta 20 lbs.): Aplicar 1 gota del tamaño de un guisante (0.5 ml) en cada lado de las encías superiores.
Perros medianos y grandes, y caballos: Aumentar la dosis según necesidad y dependiendo del tamaño del animal.

VetNova

La acción limpiadora natural de la boca ayudará a distribuir el gel a las áreas de difícil acceso. Para obtener resultados óptimos, aplicar diariamente y evitar ofrecer comida o bebida 30 minutos antes o después de la aplicación.

Consejos de aplicación: La mayoría de las mascotas permitirán que se les aplique el gel con el dedo índice. Alternativamente, el gel se puede aplicar en los labios o patas y ellos lo lamerán de estas zonas.

La salud oral de su mascota debe ser evaluada regularmente por su veterinario.

Precauciones:

Solo para uso animal. Guardar el recipiente bien cerrado, en un lugar fresco y seco, protegido de la luz solar y fuera del alcance de niños y animales. Conservar a temperatura ambiente. Proteger contra la congelación.
