Water-based and ultra-light facial sun protection, providing strong moisturizing and instant absorption, ensuring high protection against ultraviolet radiation, allowing you to enjoy the sunshine during outdoor activities.

▲ ULTRAVIOLET PROTECTION

Protection Against UV Radiation: Sunscreens help to block or absorb ultraviolet (UV) radiation from the sun, which includes UVA and UVB rays. This protection reduces the risk of sunburn, skin damage.

▲ PREVENTION OF SUNBURN

Sunscreens form a protective barrier on the skin that helps to prevent sunburn by reflecting or absorbing UV rays before they can penetrate the skin.

▲ PROTECTION FOR ALL SKIN TYPES

Sunscreens are suitable for all skin types and tones. It helps to protect individuals with fair skin, who are more susceptible to sunburn and skin damage, as well as those with darker skin tones, who are still at risk of UV-related skin issues.

▲ MOISTURIZATION AND SKIN HEALTH

Many sunscreens contain moisturizing ingredients that help to keep the skin hydrated and nourished. This can improve overall skin health and prevent dryness or irritation caused by sun exposure.
