- breathing difficulty occurs
- eye irritation occurs
- skin or scalp irritation continues or infection occurs

Keep out of reach of children.

If swallowed, get medical help or contact a Poison Control Center right away.

Directions

- **Important: Read warnings before use. Adults and children 2 years and over: Inspect** • check each

household member with a magnifying glass in bright light for lice/nits (eggs)•look for tiny nits near scalp, beginning at back of neck and behind ears•examine small sections of hair at a time•unlike dandruff which moves when touched, nits stick to the hair•if either lice or nits are found, treat with this product. **Treat** •apply thoroughly to DRY HAIR or other affected area. For head lice, first apply behind ears and to back of neck. •allow product to remain for 10 minutes, but no longer•use warm water to form a lather, shampoo, then thoroughly rinse•for head lice, towel dry hair and comb out tangles. **Remove lice and their eggs (nits)** •use a fine-tooth or special lice/nit comb. Remove any remaining nits by hand (using a throw-away glove).hair should remain slightly damp while removing nitsif hair dries during combing, dampen slightly with waterfor head lice, part hair into sections. Do one section at a time starting on top of the head. Longer hair may take 1 to 2 hours.lift a 1-to 2-inch wide strand of hair. Place comb as close to scalp as possible and comb with a firm, even motion away from scalp.pin back each strand of hair after combing•clean comb often. Wipe nits away with tissue and discard in a plastic bag. Seal bag and discard to prevent lice from coming back. •after combing, thoroughly recheck for lice/nits. Repeat combing if necessary. •check daily for any lice/nits that you missed•a second treatment must be done in 7 to 10 days to kill any newly hatched lice•if infestation continues, see a doctor for other treatments•Children under 2 years: ask a doctor
