SMTS

#### sMTS Dual HA : Sun Block SPF 44 PA ++

It has basic UV protection effects and can even protect your skin. It is recommended to use SMTS Intensive Care products during the day to protect your skin when you go out after professional skincare.

This product has a high UVA/B blocking effect and is a waterproof type. It is a waterproof type that is not easily erased by sweat and water due to its hypoallergenic fresh use and has excellent UV protection effects and high skin adhesion, so it is light and thin and less oily.

For skincare that becomes dry due to exposure to ultraviolet rays for a long time, it moisturizes and enriches dry and dry skin due to UV exposure during leisure, sports, and long-term outdoor activities.
