

POLY-VI-SOL- vitamin a, vitamin d, .alpha.-tocopherol, thiamine, riboflavin, niacin, pyridoxine, and cyanocobalamin liquid

Central Texas Community Health Centers

Enfamil® Poly-Vi-Sol

Liquid multivitamin supplement

Last updated: Tuesday, November 18, 2014

Indication

Multivitamin supplementation for infants and children.

Enfamil Poly-Vi-Sol Liquid Multivitamin Supplement is recommended for infants around 4–6 months of age who are transitioning to solid foods.

• Rationale and Special Characteristics

- Enfamil Poly-Vi-Sol Liquid Multivitamin Supplement has 9 important vitamins in a convenient daily dose. It is an excellent supplement for a child when transitioning to solid foods, during growth spurts and for the picky eater. Enfamil Poly-Vi-Sol Liquid Multivitamin Supplement (without iron) is recommended for children who have sufficient iron in their diet or the possibility of too much. The American Academy of Pediatrics (AAP) recommends 400 IU of supplemental vitamin D per day beginning in the first days of life for all breastfed and partially breastfed infants who do not receive at least 1 L of infant formula per day¹.
Enfamil Poly-Vi-Sol Liquid Multivitamin Supplement is does not contain ingredients derived from the most common food allergies: milk, eggs, peanuts, tree nuts, fish, shellfish, soy or wheat. Refrigeration is not required.

• Nutrients

	Per 1 mL	% DV Infants	% DV Children under 4 years
Vitamin A, IU	750	50	30
Vitamin D, IU	400	100	100
Vitamin E, IU	5	100	50
Vitamin C, mg	35	100	88
Thiamin, mg	0.5	100	71
Riboflavin, mg	0.6	100	75
Niacin, mg	8	100	89
Vitamin B ₆ , mg	0.4	100	57
Vitamin B ₁₂ , mcg	2	100	67

◦ **Note:** Enfamil Poly-Vi-Sol Liquid Multivitamin Supplement does not include folic acid

• Osmolality

- When added to 2 fl oz of infant formula or breast milk, 1 mL of Enfamil® Poly-Vi-Sol® increases the osmolality by +160 mOsmol /kg water². If the resulting osmolality is higher than desired for a particular baby, an option is to add 0.5 mL of the supplement to the feeding twice per day.

- **Product Form**

- Enfamil Poly-Vi-Sol Liquid Multivitamin Supplement is available as drops in 50 mL bottles.

Item #: 040265

Description: With Dropper

Unit Size: 50 mL

Cal./Unit: N/A

Prod. Yield / Unit (fl oz): N/A

Case: 12 bottles per case

Reimbursement Code: 00087-040203

Usual Daily Dose

Drops: 1.0 mL

- **Composition**

- **Ingredients:** Glycerin, water, ascorbic acid, vitamin E succinate, niacinamide, polysorbate 80, ferrous sulfate (stabilizer for vitamin B₁₂), caramel color, vitamin A palmitate, thiamin hydrochloride, riboflavin-5-phosphate sodium, vitamin D₃, vitamin B₆ hydrochloride, natural and artificial flavor, sulfuric acid (antioxidant for iron), vitamin B₁₂, sulfites.

- **Administration**

- **Drops:** Now includes an easy-to-use syringe. The syringe is marked with 0.25 mL, 0.5 mL, 0.75 mL and 1.0 mL dose lines. To administer directly, place the syringe in the child's mouth with the tip against the inside of the cheek. A firm pressure on the syringe bulb will deliver the proper dose. A slight excess will remain in the syringe. If preferred, the drops may be slowly mixed with formula, juice, cereal or other food and fed within 1 hour.

- **Storage**

- Store at room temperature. Refrigeration is not required, but will not harm the drops.

- **Precautions**

- As with all vitamin products, parents should be cautioned against excessive dosage. The bottle should be kept out of the reach of children.
