This product is manufactured using a unique dry QuantraVector Nano technology that preserves the properties and active ingredients of natural substances. It may assist in energy recovery and enhance immune modulation, which could be beneficial for maintaining respiratory health against various viral and bacterial infections such as COVID-19 and MERS. Additionally, it may help promote the safe regeneration of damaged lung cells by generating new blood and stem cells from the bone marrow. This product is designed for safe consumption without side effects.
