Drug Facts

Active ingredients	Purpose
Titanium Dioxide 4.8%	Sunscreen
Zinc Oxide 6.7%	Sunscreen

Uses

- Helps prevent sunburn.
- If used as directed with other sun protection measures (see **Directions**), decreases the risk of skin cancer and early skin aging caused by the sun.

Warnings

For external use only.

Do not use on damaged or broken skin. When using this product keep out of eyes. Rinse with water to remove.

Stop use and ask a doctor if rash occurs.

Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Directions

- Apply liberally 15 minutes before sun exposure. Works best on moisturized skin.
- Reapply:
 - After 40 minutes of swimming or sweating.
 - Immediately after towel drying.
 - At least every 2 hours. Children under 6 months: ask a doctor.

Sun Protection Measures

Spending time in the sun increases your risk of skin cancer and early skin aging. To decrease this risk, regularly use a sunscreen with a Broad Spectrum SPF value of 15 or higher and other sun protection measures including:

- Limit time in the sun, especially from 10 a.m.- 2 p.m.
- Wear long-sleeved shirts, pants, hats, and sunglasses.

TINT DU SOLEIL®

Foundation Meets Skincare
Nourish and even your complexion with Coloresscience® Tint du Soleil®. Light coverage blurs imperfections, evens skin tone, and leaves skin feeling silky. Replenish skin with ceramides and lipids that provide comforting hydration while peptides and a multi-vitamin complex work to improve skin health. Protect from sun and environmental exposure that cause skin aging with all-mineral Zinc Oxide and Titanium Dioxide that deliver SPF 30 defense.

How to Use
Begin by applying two pumps and blend onto the face for sheer to medium coverage before sun exposure and as needed. For fuller coverage, additional pumps may be needed.

How to Use (EU)
Do not stay too long in the sun, even while using a sunscreen product. Keep babies and young children out of direct sunlight. Over-exposure to the sun is a serious health threat. Reducing the quantity of sunscreen product applied will lower the level of protection significantly. Generously apply sunscreen products before sun exposure. Keep out of eyes. Stop use and ask a doctor if adverse reaction occurs. Re-apply frequently to maintain protection, especially after perspiring, swimming or towelling.
