**PHYTOWHITE™**  
**BRIGHTENING SYSTEM**

THE THREE-STEP SOLUTION

**PhytoWhite™ Dark Spot Serum**

This serum is specially formulated to visibly reduce the appearance of dark spots.

**Caution: Do not apply the serum on entire face. Use of the PhytoWhite™ Serum may make your skin more sensitive to the sun. Apply G.M. Collin sun protection before sun exposure while using this product and for a week afterwards.**

**PhytoWhite™ Cream:** This treating cream hydrates, nourishes, and brightens skin. The complexion becomes clearer and uniform.

**Mineral Sun Veil Cream SPF 15:** Formulated exclusively with Zinc Oxide, it offers a complete protection against sunburn and skin damage caused by both UVA and UVB exposure.

**Caution: Keep out of reach of children. For external use only. Discontinue use if signs of irritation appear. Can be used alone and on children 6 months and older. Avoid contact with eyes.**

**Use:** After the G.M. Collin cleanser and treating lotion, apply the serum on dark spots only. Apply the cream on the entire face and complete with Sun Protection SPF 15 +.

**Frequency:** Morning and evening or as recommended by your skincare professional.
