Uses:

For use as a topical antiseptic for surface wounds, to repel flies and to treat infestations due to fly strike in raptors, pet birds, captive small mammals, captive reptiles and captive exotic/zoo mammals. Use only when there is a reasonable certainty that the treated animal will not be consumed by humans or food-producing animals.

Do not use:

Do not use with soaps or other chemicals. This product is extremely toxic to fish, aquatic invertebrates, oysters and shrimp. Do not apply directly to or near water.

Human Warnings:

Not for use in humans. Keep out of reach of children. Do not contaminate food, water, eating utensils, or food contact surfaces. Wash hands before eating or

drinking.

If accidentally ingested contact a Poison Control Center or a doctor. Do not induce vomiting unless advised by the Poison Control Center or a doctor. If accidental eye contact, hold eye open and rinse with water for 10 minutes. Seek medical help if necessary.

To obtain product information, including Safety Data Sheet (SDS) e-mail: info@f10products.com

Directions for Use:

Use disposable gloves during application and wash hands thoroughly after use. Clean the wound prior to application. Apply a layer of ointment over the entire wound site. Repeat once a week, if necessary or as advised by your veterinarian. This product is water soluble and should be reapplied if animal is bathed or exposed to rain. If the wound persists or worsens, contact your

veterinarian.

Disposal:

Do not reuse container. If empty, place in trash or recycle if available. If partly filled, contact your local waste agency for disposal instructions.
