Carr & Day & Martin WOUND CREAM

Carr & Day & Martin WOUND CREAM

Anti-bacterial

Anti-fungal

- Soothes minor cuts and abrasions
- Forms a water resistant and breathable barrier in wet and muddy conditions
- Hygienic application, prevent cross-contamination

Wound Cream gently soothes and aids the natural healing process. Ideal for application to minor cuts, scratches and abrasions; also invaluable in wet and muddy conditions. Contains zinc oxide to form a non-greasy, breathable barrier against potential contaminants. For winter skin conditions, helps soften and lift and existing scabs and provides a water resistant barrier. Also includes effective essential oils including tea tree with anti-bacterial and anti-fungal properties. Allows the skin to breathe freely and heal correctly in beneficial moist conditions.

For minor cuts: Ensure the area is clean, dry and free from debris. Apply Wound Cream liberally to the area, ensuring all affected skin is covered. Re-apply as required once or twice daily.

For winter skin conditions: Wash legs and heels thoroughly to remove any mud, and allow to dry. Apply liberally to affected areas. For horses known to suffer from winter skin conditions, apply on a daily basis to vulnerable areas, before exposure to wet and muddy conditions.

NOTE: If the condition does not improve or if you have any concerns, consult your veterinary surgeon. Contains no prohibited substances.

Storage: Keep out of reach of children. Store in tightly closed original container. Store below 30 deg C.

For batch number and expiry date, see top of tube.
