

WART REMOVER- salicylic acid liquid
Hengyang Chuangjiujia Trading Co., Ltd.

Wart remover

Wart remover

Salicylic acid 10%

Wart remover

for the removal of common and plantar warts ·the common wart is easily recognized by the rough “cauliflower-like” appearance on the surface. the plantar wart is recognized by its location only on the bottom of the foot, its tenderness and interruption of the footprint pattern

For external use only. Flammable.

Do not use on irritated skin or on any area that is infected or reddened ·birthmarks, warts with hair growing from them, genital warts or warts on the face or mucous membranes if you have diabetes or poor blood circulation.

When using this product ·avoid contact with eyes. If product gets into the eye, flush with water for 15 minutes. avoid inhaling vapors. cap tightly and store at room temperature away from heat

Stop use and ask a doctor if discomfort persists.

If swallowed, get medical help or contact a Poison Control Center (1-800-222-1222) right away.

Directions ·wash affected area may soak wart in warm water for 5 minutes ·

dry area thoroughly ·by squeezing tube gently, apply one drop at a time to sufficiently cover each wart ·let dry.

repeat this procedure once or twice daily as needed (until wart is removed) for up to 12 weeks

Other information ·store at room temperature avoid excessive heat 37°C (99°F) ·skin discoloration may occur during or after use wipe the tip of the tube with a paper towel between uses
