Salicylic acid 2.0%

Acne treatment

For external use only

Skin irritation and dryness is more likely to occur if you use another topical acne medication at the same time. If occurs only use one topical acne medication at the same time.

Avoid contact with eyes. If contact occurs, flush thoroughly with water.

Sensitivity test for a new user:

Apply product sparingly to one or two small affected areas during the first three days. If no discomfort occurs, follow the directions above.

If product is swallowed, get medical help or contact a Poison Control Center right away.

Directions:

Clean skin throughly before applying this product. Cover entire affected area with a thin layer one to three times daily. Because excessive drying of the skin may occur , start with one application daily, then gradually increase to two or three times daily if needed or as directed by a doctor. If bothersome dryness or peeling occurs, reduce application to once a day or every other day.
