CVS Medicated Plantar Wart Remover

▯Active ingredient

Salicylic acid 40%w/w

▯Purpose

Plantar wart remover

▯Uses

- for the removal of plantar warts on the bottom of the foot. The plantar wart is recognized by its location only on the bottom of the foot, its tenderness, and the interruption of the footprint pattern.

▯Warnings

For external use only.

Do not use

- if you are diabetic or have poor blood circulation, except under the advise and supervision of a doctor or podiatrist
- on irritated, infected or reddened skin
- on genital warts and warts on the face
- on moles, birthmarks and warts with hair growing from them
- on mucous membranes

Keep this and all drugs out of the reach of children.

If swallowed, get medical help or contact a Poison Control Center right away.

If discomfort persists

see your doctor or podiatrist.

▯Directions

- wash affected area, may soak wart in warm water for 5 minutes
- dry area thoroughly
- if necessary, cut medicated patches to fit wart
- apply the adhesive side of patch onto wart
- cover patch with pads to conceal area
- repeat procedure every 48 hours as needed (until wart is removed) for up to 12 weeks
