Universal Barrier-Dyne 10 Barrier Teat Dip / Sellador de Barrera para Pezones

Important Use Instructions

DO NOT DILUTE. USE AS IS.

Read and understand all label instructions before using this product. For additional information, refer to the Material Safety Data Sheet available from your Universal representative.

DIRECTIONS FOR TEAT DIPPING

FOR PRE-MILKING:

After teats have been properly cleaned, dip each quarter in Universal pre-dip of your choice. Allow product to stay on teats 15-30 seconds, then wipe dry with a clean towel. Examine each quarter with strip cup before applying milking unit.

FOR POST-MILKING:

Immediately after milking, dip entire teat in undiluted Barrier-Dyne 10 and allow to air dry. Use a fresh solution if the dip becomes visibly cloudy or dirty. Barrier-Dyne 10 is formulated for use as an aid in reducing the spread of organisms which may cause mastitis. Before next milking, wash cow's udder and teats with clean individual paper towel. For further information regarding good sanitary practice in the milking parlor, consult your Universal representative.

FIRST AID

Contact with product can cause irritation to eyes. Keep out of eyes.

Eye Contact: Flush with water. Remove contact lenses after first 5 minutes, if present, then continue flushing.

If Swallowed: Drink large quantities of water and induce vomiting.

STORAGE AND DISPOSAL

THOROUGHLY RINSE ALL MEASURING DEVICES AND STORE OUT OF REACH OF CHILDREN. Avoid contact with food or feed. Avoid storing near heat or open flame. Keep container tightly closed when not in use. If product has frozen, thaw in warm room and shake well before using. Do not reuse empty container. Rinse container before disposing in a safe manner.
