

BIORE- salicylic acid liquid
Kao USA Inc.

Biore Paint & Peel Liquid Pimple Patch

Drug Facts

Active ingredients

Salicylic Acid 1%

Purpose

Acne treatment

Uses for the treatment of acne

Warnings

For external use only

When using this product

- Skin irritation and dryness is more likely to occur if you use another topical acne medication at the same time. If irritation occurs, only use one topical acne medication at a time.
- Do not apply to damaged or broken skin. Discontinue use if rash or irritation occurs.

Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Directions

- Clean the skin thoroughly before applying this product.
- Cover the entire affected area with a thin layer 1 to 3 times daily using the applicator tip.
- Because excessive drying of the skin may occur, start with 1 application daily, then gradually increase to 2 or 3 times daily if needed or as directed by a doctor.
- If bothersome dryness or peeling occurs, reduce application to once a day or every other day.

Other information

store at room temperature

Inactive ingredients water, glycerin, pullulan, ethoxydiglycol, isodecyl neopentanoate, caesalpinia spinosa gum, inulin, caprylic/capric triglyceride, sodium hydroxide, tetrasodium glutamate diacetate, phenoxyethanol

PAINT & PEEL

LIQUID

PIMPLE PATCH

with Salicylic Acid

Invisible Acne Treatment

NET WT

0.5 OZ (14 g)

Biore
PAINT & PEEL
LIQUID PIMPLE PATCH
with Salicylic Acid
Invisible Acne Treatment

WHAT IT DOES: This targeted, customizable acne treatment glides onto skin and quickly dries into a thin, invisible layer, with salicylic acid concentrated where you need it so it can penetrate the pore and treat pimples. Peel off painlessly to reveal clearer and calmer skin. Works in hard-to-reach areas where traditional pimple patches can't.

- Gentle on Sensitive Skin
- Fragrance Free
- Non-Comedogenic
- Cruelty Free

HOW TO USE:

1. Start with a clean, dry face.
2. Apply a thick layer of product directly to your pimple using the applicator tip. Do not rub in or use your finger to apply.
3. Allow the product to air dry completely (about 10-15 minutes).
4. It will develop a film-like patch where it was applied. The patch should remain on your pimple for a minimum of 4 hours. Use morning or night until your pimple has disappeared.
5. **REMOVAL:** Peel off gently by lightly rubbing at the edge of the patch. Once the edge is slightly lifted, slowly peel the patch off and away from your skin. Alternatively, the patch can also be easily removed with water and gentle rubbing.
