At Animal Pharmaceuticals we strive to provide the best nutritional and topical treatments for your pet by going above and beyond...and we don't stop there. We know that caring for your pet is just as important as caring for your own health, so we've developed and implemented systems that make things easier on you and convenient for your Veterinarian.

REFILL REMINDER

Our revolutionary labels consist of two important elements.

1. The Refill Reminder portion of the label enables your Veterinarian to provide you with the name of the product, and any special instructions that may be required for your pet.
2. The Peel and Stick portion of the label provides a simple method for your Vet to enter the same information on to your pet's chart. No confusion means your pet is receiving the best care possible.

PHARMASOME TECHNOLOGY

Retrieving and sustaining the most nutrients and healthful ingredients is the foundation for this technology. Phasomasomes enhance the effects of the functional ingredients. The nano-sized Phasosome particles encapsulate functional ingredients, adhere to the surface and penetrate through skin, and thus carry the ingredients to areas where they can exert their effects efficiently. Additionally and as always you'll find that all of our bottles and containers are made of recyclable plastic. Please help us help the environment by recycling.
