Hengyang Chuangjiujia Trading Co., Ltd.

84735-007 wart remover

Salicylic Acid 5%

Wart remover

for the removal of common and plantar warts

the common wart is easily recognized by the rough "cauliflower-like" appearance of the surface.

the plantar wart is recognized by its location only on the bottom of the foot. its tenderness and the interruption of the footprint pattern

please keep out of reach of children. For external use only. Keep away from fire and flame. Please clean your hands before use to ensure the best results from the product. Discontinue use if signs of irritation or rash occur. Store in a cool and dry place.

Please clean your hands before use to ensure the best results from the product.

Discontinue use if signs of irritation or rash occur.

please keep out of reach of children.

1. wash the affected area
2. may soak the wart in warm water for 5 minutes
3. dry area thoroughly
4. using the applicator (cotton swab) apply a layer of ointment to sufficiently cover each wart
5. allow it to fully absorb and cover it with a bandage as needed
6. repeat this procedure once or twice daily as needed (until the wart is removed) for up to 12 weeks
