

**RED CROSS TOOTHACHE- eugenol liquid**  
**The Mentholatum Company**

-----  
**Drug Facts - Red Cross Toothache**

**Active ingredient**

Eugenol 85%

**Purpose**

Toothache relief agent

**Uses**

temporarily relieves throbbing, persistent toothache due to a cavity until a dentist can be seen

**Warnings**

**For external use only**

**Allergy alert:** do not use if you are allergic to eugenol (clove oil)

**When using this product**

- use only in teeth with persistent, throbbing pain
- avoid touching tissues other than tooth cavity. Contact with lips or mucous membranes can cause burning, swelling, or irritation.
- DO NOT SWALLOW to avoid irritation
- do not use for more than 7 days
- do not exceed recommended dosage

**Stop use and ask a dentist or doctor if**

- irritation persists, inflammation develops, or if fever and infection develop

See a dentist as soon as possible whether or not the pain is relieved. Toothaches and open cavities indicate serious problems that need prompt attention by a dentist.

**Keep Out of Reach of Children**

If swallowed, get medical help or contact a Poison Control Center right away.

**Directions**

- rinse tooth with water to remove any food particles from the cavity
- using tweezers, immerse cotton pellet in medication
- **to prevent dripping**, squeeze gently between fingers to remove excess liquid

- place pellet in tooth cavity for *one minute***without touching surrounding tissues**, then remove
- supervise children using this product

adults and children 12 years and over: use up to 4 times daily or as directed by a dentist or doctor

children under 12 years: ask a dentist or doctor
