Iodine Sanitizing Teat Dip for Dairy Cows

9659

NDC: 57906-418

Aids in reducing the spread of mastitis-causing organisms

IMPORTANT USE INSTRUCTIONS:

DO NOT DILUTE. USE AS IS.

Read and understand all label instructions before using this product. For additional information, refer to the Material Safety Data Sheet available from your Universal representative.

DIRECTIONS FOR TEAT DIPPING:

FOR PRE-MILKING:

After teats have been properly cleaned, dip each quarter in undiluted T.D. iodine teat dip. Allow product to stay on teats for 30 seconds, then wipe dry with a clean towel. Examine each quarter with strip cup before applying milking unit.

FOR POST-MILKING:

Immediately after milking, dip entire teat in undiluted T.D. and allow to air dry. Use a fresh solution if the dip becomes visibly cloudy or dirty. T.D. is formulated for use as an aid in reducing the spread of organisms which may cause mastitis. Before next milking, wash cow's udder and teats with a clean, individual paper towel. For further information regarding good, sanitary practices in the milking parlor, consult your Universal representative.

Manufactured for: Universal
