L'Oreal USA Products Inc

Drug Facts

Directions

Apply liberally and evenly onto face and/or body prior to sun exposure and massage into skin for complete coverage. Avoid the eye area. Leave it dry and apply a second time to ensure a generous application. An insufficient amount of product reduces the level of protection. Re-apply frequently to maintain protection, especially after swimming, perspiring, or using a towel. Over-exposure to the sun is dangerous. Keep babies and young children out of direct sunlight, and well covered. Do not stay too long in the sun, even while using a sunscreen product, because it does not provide you 100% protection. In case of contact with eyes, rinse them immediately and thoroughly.

DIRECTIONS: Apply liberally and evenly onto face and/or body prior to sun exposure and massage into skin for complete coverage. Avoid the eye area. Leave to dry and apply a second time to ensure a generous application. An insufficient amount of product reduces the level of protection. Re-apply frequently to maintain protection, especially after swimming, perspiring, or using a towel. Over-exposure to the sun is dangerous. Keep babies and young children out of direct sunlight, and well covered. Do not stay too long in the sun, even while using a sunscreen product, because it does not provide you 100% protection. In case of contact with eyes, rinse them immediately and thoroughly. **CONSEJOS DE USO:** Aplicar generosa y uniformemente sobre el rostro y/o el cuerpo antes de la exposición al sol. Evitar el contorno de los ojos. Masajear para que el producto penetre en la piel y la cubra completamente. Volver a aplicar con frecuencia para mantener la protección, especialmente después de nadar, transpirar o secarse. En caso de contacto con los ojos, aclarar inmediatamente con agua abundante. La sobreesposición al sol es peligrosa. No exponga a los bebés y a los niños directamente al sol. No proteja 100% del sol. Evite la exposición en las horas de máxima radiación. Evitar el contacto con los textiles. **CONSEILS D'UTILISATION :** Appliquer généreusement et uniformément sur le visage et/ou le corps avant de s'exposer au soleil et faire pénétrer pour une couverture complète. Éviter le contour des yeux. Une application insuffisante de produit réduit le niveau de protection. Renouveler fréquemment l'application pour une protection continue, en particulier après avoir nagé, transpiré, ou s'être essuyé. Ne protégez pas à 100% du soleil. La surexposition au soleil est dangereuse. Ne laissez pas les jeunes enfants au contact du soleil direct. En cas de contact avec les yeux, rincer immédiatement et abondamment. **ANWENDUNG:** Intensive Mittagssonne vermeiden. Sich übermäßig der Sonne aussetzen ist gefährlich. Bleiben Sie nicht zu lange in der Sonne, auch wenn Sie ein Sonnenschutzprodukt verwenden, da dieses selbst bei hohem LSF nicht 100%igen Schutz bietet. Sonnenschutzmittel vor dem Sonnen auftragen. Mehrfach auftragen, um den Lichtschutz aufrecht zu erhalten, insbesondere nach dem Aufenthalt im Wasser, Abtrocknen und Schwitzen. Großzügig auftragen. Geringe Mengen reduzieren die Schutzleistung. Babys und Kleinkinder vor direkter Sonneneinstrahlung schützen. Für Babys und Kleinkinder schützende Kleidung sowie Sonnenschutzmittel mit hohem Lichtschutzfaktor (LSF größer 25) verwenden. Kontakt mit Textilien vermeiden. **CONSIGLI PER L'USO:** Rinnovare frequentemente e abbondantemente l'applicazione su viso e/o corpo per mantenere la protezione solare specialmente dopo aver sudato o dopo essersi bagnati o asciugati. Evitare il contorno occhi. Non protegge al 100% dal sole. La sovrapposizione al sole è pericolosa. Non esporre i neonati e i bambini piccoli direttamente al sole. In caso di contatto con gli occhi, risciacquare immediatamente e accuratamente.
