1. Removing any nail polish before using the product. Wash your nails & the surrounding skin, and ensure they are thoroughly dry, as oils and moisture can reduce adhesion.

2. Tear off the release paper from the product (3), then remove the transparent film that covers the hydrogel (2).

3. Carefully align the hydrogel with the surface of your nail (3).

4. Apply firmly to cover the sides of the toe or finger with the patch.

5. Peel off the remaining release paper (4).

6. Fold the adhesive part that's left to cover the toe or fingertip.

7. Leave the patch applied for 6-8 hours, preferably overnight, for a recommended duration of 3-6 months.
