BioSeb Mousse

ACTIVE INGREDIENT: Salicylic Acid 2%

INACTIVE INGREDIENTS: Purified Water, Ethyl Lactate, Ordenone, Glycerin, Sodium Alpha Olefin Sulfonate, Cocamidopropyl Betaine, Fragrance, SDA40B Alcohol, Polysorbate 80, Acrylates Copolymer, Polyquaternium 7, Methylchloroisothiazolinone, Methylisothiazolinone, N-Octadecanoylphytosphingosine (Ceramide III) and MicroSilver

BioSeb Mousse: Combines a proprietary formulation of Salicylic Acid, Ethyl Lactate and MicroSilver BG for enhanced antiseptic and keratoplastic activity. Ceramide III helps support healthy skin.

PRODUCT DESCRIPTION: BioSeb Mousse is an antiseptic keratoplastic and keratolytic mousse with an optimal skin pH balance for use on dogs, cats, and horses. Formulated for adjunctive topical management to help normalize keratinization, reduce scale formation and manage seborrhea.

DIRECTIONS: Shake well before use. Brush the hair coat before application. For dogs and cats, dispense the volume of product onto the dry hair coat, based on weight, as indicated in the table below. Thoroughly, but gently, massage into the dry hair coat to allow the product to reach the skin. Repeat as necessary to cover the whole body of the animal. For horses, use focally on areas where application is warranted. Do not rinse off and allow to air dry.

Use as often as necessary. Safe to use with topical flea products and other topical skin medications.

For dogs and cats:

Under 11 lbs . . . 1 pump per 2 lbs

12-88 lbs . . . 1 pump per 4 lbs

Over 89 lbs . . . 1 pump per 6 lbs

Dosage may be doubled for long-haired dogs

For horses: Use focally to cover the area of application.

PRECAUTIONS: For topical use only on dogs, cats and horses. Avoid contact with eyes and mouth. If eye contact occurs, rinse thoroughly with water, discontinue use and immediately consult a veterinarian.

STORAGE: Store at room temperature. Protect from freezing.

AVAILABLE THROUGH LICENSED VETERINARIANS ONLY
