BENEFITS: This fermented plant based spray will deliver essential nutrients to the skin creating healthy, lively, and elastic skin. It is packed with Tremella fuciformis stem cells, hydrolyzed collagen, PDRN, rhEGF and rhFGF.

This product contains rhFGF (Fibroblast Growth Factor), a natural protein that stimulates skin's cell growth, repair, and regeneration. Produced through a combination of microbial fermentation and plant extraction, it ensures purity and high effectiveness. rhFGF activates fibroblast activity, promoting collagen synthesis, accelerating wound healing, improving skin elasticity, and enhancing the skin's barrier function. Perfect for anti-aging, skin repair, and post-procedure care, it helps your skin maintain a smooth, youthful and healthy appearance.
