

**SEAVUE DENTAL DESENSITIZER- potassium nitrate and sodium fluoride
dentifrice gel, dentifrice
Xiling (Zhenjiang) Medical Technology Co., Ltd.**

Potassium nitrate, Sodium fluoride

Stop use and ask a doctor if irritation, swelling, or allergic reaction occurs.

Do not use in children under 12 years of age unless recommended by a dentist or physician

Keep out of reach of children. If more than used for treatment is accidentally swallowed, get medical help or contact a Poison Control Center right away.

Oral antiseptic

Use once or twice daily as needed.

Dosage:

Potassium nitrate 2.6% Tooth desensitizer

Sodium fluoride 0.3% (0.14% w/v fluoride ion) Anticavity

Use:

Builds increasing protection against painful sensitivity of the teeth to cold, heat, acids, sweets, or contact

Aids in the prevention of dental cavities

Do not use in children under 12 years of age unless recommended by a dentist or physician

Stop use and ask a dentist if the problem persists or worsens. Sensitive teeth may indicate a serious problem that may need prompt care.

Keep out of reach of children. If more than used for treatment is accidentally swallowed, get medical help or contact a Poison Control Center right away.

Patients with gingival ulcers, stomatitis, or oral mucosal ulcers should use with caution.

None

Adults and children 12 years and older:

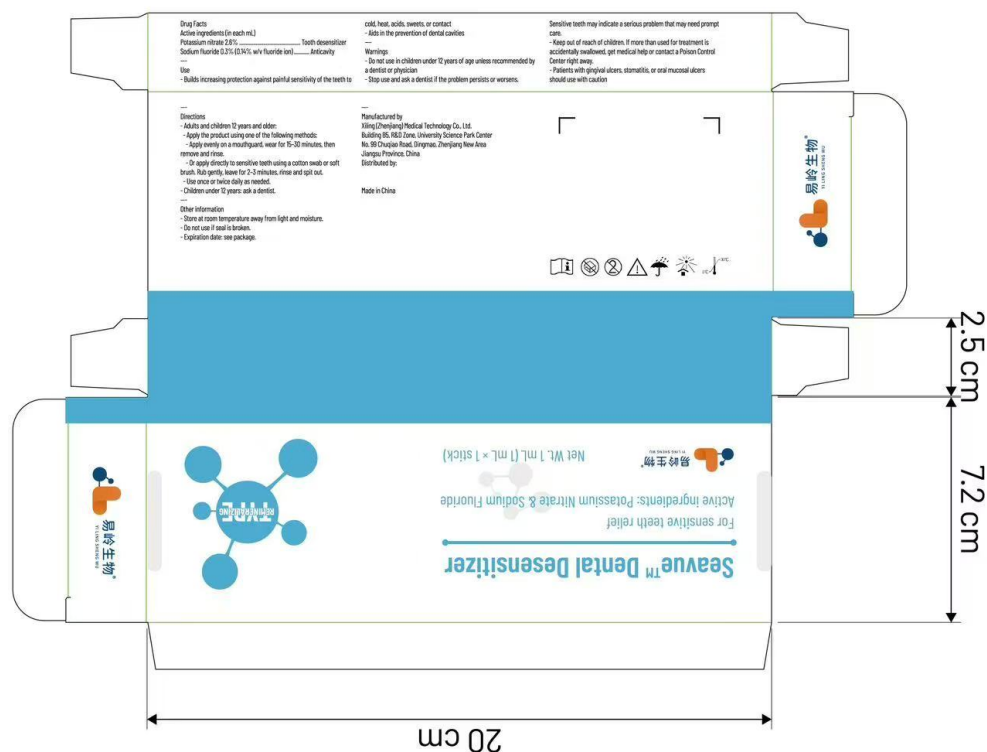

Apply the product using one of the following methods:

Apply evenly on a mouthguard, wear for 15–30 minutes, then remove and rinse.

Or apply directly to sensitive teeth using a cotton swab or soft brush. Rub gently, leave for 2–3 minutes, rinse and spit out.

Use once or twice daily as needed.

Children under 12 years: ask a dentist.
