

GILTUSS DIABETIC- dextromethorphan hydrobromide, guaifenesin solution
Gil Pharmaceutical Corp

Giltuss Diabetic Cough & Cold

Active Ingredients

Active ingredients

Dextromethorphan HBr, 20 mg

Guaifenesin , 200 mg

Drug Facts

Active ingredients (in each 10 mL)

Dextromethorphan HBr, 20 mg

Guaifenesin, 200 mg

Purposes

Cough Suppressant

Expectorant

Uses • temporarily relieves: • cough due to minor throat and bronchial irritation as may occur with the common cold or inhaled irritants • the intensity of coughing • the impulse to cough to help you get to sleep • helps loosen phlegm (mucus) and thin bronchial secretions to make cough more productive and drain bronchial tubes.

Warnings

Do not use • if you are now taking a prescription monoamine oxidase inhibitor (MAOI) (certain drugs for depression, psychiatric, or emotional conditions, or Parkinson's disease), or for 2 weeks after stopping the MAOI drug. If you do not know if your prescription drug contains an MAOI, ask a doctor or pharmacist before taking this product.

Ask a doctor before use if you have • a cough with too much phlegm (mucus) • a persistent or chronic cough as occurs with smoking, asthma, chronic bronchitis, or emphysema • when using this product do not use more than directed

Stop use and ask a doctor if • cough lasts for more than 7 days, comes back, or is accompanied by fever, rash, or
