### **PraziCleanse**

#### **Common Symptoms of Parasitic Diseases Treated**

**Skin Flukes:** Extra mucous, visible spots or worms, flashing, scratching or rubbing on rocks

**Wasting Disease:** Clamped fins, weight loss, lethargy, deformity

**Gill Flukes:** Discolored, swollen gills, rapid breathing, gasping at surface

PraziCleanse is a safe anti-parasitic treatment to control unwanted parasites. Our easy-to-use packet dosing system is effective against skin and gill flukes, tapeworms, flatworms, and turbellarians. Works in both fresh and saltwater systems without affecting biological filtration when used as directed. PraziCleanse is safe for use with most invertebrates.

#### **PREPARATIONS:**

No water changes, pH or temperature adjustments necessary if readings are in ideal range (Freshwater pH 6.4 - 7.6 / Saltwater 8.0 - 8.4, temperature 68° to 82° F). Remove all chemical filtration (carbon, ion exchange resins) before and during use. Turn off UV sterilizer if present during treatment. Aeration and water flow should be maintained. In marine aquariums turn off protein skimmer during treatment; resume use after completion of treatment. Note: Fritz PraziCleanse will not color or cloud aquarium water. Use of a hospital tank is recommended.

#### **DIRECTIONS:**

Add one packet PraziCleanse per 20 gallons. After 5 days, perform a 25% water change and repeat treatment. Discontinue use of skimmer, UV sterilizers, carbon and other adsorptive resins during treatment. NOTE: Not safe for use in marine systems with tube worms or feather dusters.

#### **ACTIVE INGREDIENT:**

Each packet contains 190 mg praziquantel.

**PRECAUTIONS:**

**KEEP OUT OF REACH OF CHILDREN**

**WARNING:**

THIS PRODUCT IS INTENDED FOR THE EXCLUSIVE USE WITH ORNAMENTAL ORGANISMS INDICATED AND IS NOT INTENDED FOR USE WITH OTHER ANIMALS, HUMANS, OR FISH FOR HUMAN CONSUMPTION

FRITZ
