

NWRB NICOTINE TRANSDERMAL PATCH- nicotine patch
Dongkou County Hecheng Network Technology Co., Ltd.

84288-007 NWRB Nicotine Transdermal Patch

Nicotine 21mg

Stop smoking aid

Use Reduces withdrawal symptoms, including nicotine craving, associated with quitting smoking

Warnings if you are pregnant or breast feeding, only use this medicine on the advice of your health care provider. Smoking can seriously harm your child. Try to stop smoking without using any nicotine replacement medicine. This medicine is believed to be safer than smoking. However, the risks to your child from this medicine are not fully known.

Heart disease, recent heart attack, or irregular heartbeat. Nicotine can increase your heart rate.

High blood pressure not controlled with medication. Nicotine can increase your blood pressure.

An allergy to adhesive tape or have skin problems, because you are more likely to get rashes

.Stomach ulcer or diabetes.

History of seizures

If you have vivid dreams or other sleep disturbances, remove the patch at bedtime.

Skin redness caused by the patch does not go away after four days, or if your skin swells, or you get a rash.

Irregular heartbeat or palpitations occur.

You get symptoms of nicotine overdose, such as nausea, vomiting, dizziness, weakness, and rapid heartbeat.

You have symptoms of an allergic reaction (such as difficulty breathing or rash).

Used patches have enough nicotine to poison children and pets. If swallowed, get medical help or contact a Poison Control Center right away. Save pouch to use for patch disposal. Dispose of the used patches by folding sticky ends together and putting in pouch.

If you are under 18 years of age, ask a doctor before use.

Before using this product, read the enclosed User's Guide for complete directions and other information.

Use 1 patch every 24 hours. Apply to a clean, dry, hairless area of skin on the upper arm, hip, or torso.

Begin using the patch on your quit day, use according to the following 8-week schedule.
