**Shenzhen Zhenshangzekai Technology Co., Ltd.**

-----

Ivermectin 0.5%

Have any skin conditions or sensitivities.

Are pregnant or plan to become pregnant.

It is not known if product can harm your unborn baby.

Are currently or planning to breastfeed.

Avoid getting product on your breast to help prevent contact by your baby.

Breathing difficulty occurs.

Eye irritation occurs.

Skin or scalp irritation continues or infection occurs.

Rash develops.

Keep out of reach of children.

If swallowed, get medical help or contact Poison Control Center (1-800-222-1222) right away.

If pregnant or breastfeeding, ask a health professional before use.

Lice Treatment

925-899-0135

lotion, topical

TAMPER EVIDENT: DO NOT USE IF THE PUMP IS DAMAGED OR SEAL IS BROKEN. Store at room temperature 68°F-77°F

Do not freeze.

Keep carton and see Consumer Information Leaflet and warnings before use

Butylated hydroxyanisole, castor oil, cetyl alcohol, citric acid anhydrous, crodalan AWS, cyclomethicone, glycerin, imidurea, lanolin alcohols, methylparaben, oleyl alcohol, olive oil, propylene glycol, propylparaben, purified water, shea butter, sodium dicitrate anhydrous, sorbitan tristearate and stearyl alcohol.

**Directions**

Important: Read warnings before use

Children 6 months of age to under 12 years of age :

an adult should supervise use

Adults and children 6 months of age and over:

**Inspect**

All household members should be checked by another person for lice and/or nits (eggs)

Use a magnifying glass in bright light to help you see

the lice and/or nits (eggs)

Use a tool, such as a comb or two unsharpened pencils to lift and part the hair

Look for tiny nits near the scalp, beginning at the back of the neck and behind the ears

Examine small sections of the hair (1-2 inches wide) at a time

Unlike dandruff, nits stick to the hair, Dandruff should move when lightly touched

If either lice or nits (eggs) are found, treat with product

### **Treat**

Your hair and scalp must be DRY before applying product

Apply the product directly onto dry hair and scalp

Completely cover your scalp and hair closest to the scalp first, and then apply outwards towards the ends of your hair

Use only as much as needed to fully cover hair and scalp up to one full bottle, and discard the remaining. Rub product throughout your hair

It is important to completely cover your entire head so that all lice and eggs are exposed to the lotion. Be sure that each hair is coated from the scalp to the tip

### **Wait and Rinse**

Allow product to stay on your hair and scalp for 10 minutes after it has been applied. Use a timer or clock. Start timing after you have completely covered your hair and scalp with product.

After 10 minutes, rinse product completely from your hair and scalp using only water.

After rinsing, dry and style hair as usual. Wait 24 hours before applying shampoo.

### **After treatment**

Wash your hands after applying product.

-Nit combing is not necessary when treating with product for it to work, but if desired, a fine-tooth comb or special nit comb may be used to remove dead lice and nits. This is a single use product. Discard

bottle after use. Do not use again on the same person and same lice infestation without talking to a healthcare provider first. If infestation continues, see a doctor for other treatments.

Machine wash any bedding and clothing used by anyone having lice. Machine wash at high temperatures (150°F) and tumble in a hot dryer for 20 minutes. After finishing treatment with lice medicine, check everyone in your family for lice after one week.

Consider treatment for those who have lice.

Kills Lice:

Just once is all it takes
