Lice treatment

lotion, topical

Butylated hydroxyanisole, castor oil, cetylalcohol, citric acid anhydrous, crodalan AWS,cyclomethicone, glycerin, imidurea, lanolinalcohols, methylparaben, oleyl alcohol, oliveoil, propylene glycol, propylparaben, purifedwater, shea butter, sodium citrate anhydroussorbitan tristearate and stearyl alcohol

#### **Directions**

Important: Read warnings before use

.Children 6 months of age to under 12 years of age :

an adult should supervise use

Adults and children 6 months of age and over:

### Inspect

All household members should be checked by anothe!person for lice and/or nits (eggs) Use a magnifying glassin bright light to help you see thelice and/or nits(eggs)

Use a tool, such as a comb or two unsharpened pencilsto lift and part the hair Look for tiny nits near the scalp, beginning at the backof theneck and behind the ears Examine small sections of the hair (1-2 inches wide) at a time

.Unlike dandruff, nits stick to the hair, Dandruff shouldmove when lightly touched If either lice or nits (eggs) are found, treat with product

#### **Treat**

Your hair and scalp must be DRY before applying product

Apply the product directly onto dry hair and scalp

Completely cover your scalp and hair closest to the scalp first.and then apply outwards towards the endsofyour hair

Use only as much asneeded to fully cover hair and scalp up to one full bottle, and discard the remaining Rub product throughout your hair

Itis important to completely cover your entire head sothat all lice and eggs are exposed to the lotion, Be surethat each hair is coated from the scalp to the tip

#### **Wait and Rinse**

Allow product to stay on your hair and scalp for 10minutes after it has been applied, Use a timer or clockStart timing after you have completely covered yourhair and scalp with product.

After 10 minutes, rinse product completely from youhair and scalp using only water. After rinsing, dry and style hair as usual. Wait 24 hoursbefore applying shampoo.

#### After treatment

Wash your hands after applying product.

-Nit combing is not necessary whentreating with product for it to work, but ifdesired, a fne-tooth comb or special nitcomb may be used to remove dead liceand nits. This is a single use product, Discard

bottle after use. Do not use again on the same personand same lice infestation without talkingto a healthcare provider frst. If infestation continues, see a doctor forother treatments.

Machine wash any bedding and clothingused by anyone having lice, Machinewash at high temperatures (150°F) and tumble in a hot dryer for 20 minutes. After fnishing treatment with licemedicine, check everyone in your family for lice after one week.

Considertreatment for those who have lice.

TAMPER EVIDENT: DO NOT USE IF THE PUMP IS DAMAGED OR SEAL IS BROKEN. Store at room temperature 68°CF-77°

Do not freeze.

keep carton and see Consumer Information Leaflet and warnings before use
