KEEP OUT OF REACH OF CHILDREN NOT FOR HUMAN USE

Attention

For External Use Only

Wash hands thoroughly after handling.

Get medical advice/ attention if you feel unwell.

DIRECTIONS

Lely Quaress Barrier is intended to be used with Lely robotic milking systems.

IMPORTANT: Do not mix with water, any other teat dips, or other products unless specified in product use instructions. If transferred from this container to any other, make sure that the other container is thoroughly pre-cleaned and bears the proper container labeling.

Robotics Milking Pre-Milking/Prepping Directions

Pre-milking/prepping: When used with the Lely robotic milking system teats should be prepped according to the recommendations of Lely, using the appropriate Astri brush wash product and procedure.

Pre-Milk Dipping Directions

Pre-milk/prepping: Wash teats thoroughly just prior to next milking with appropriate udder wash solution or pre-milking teat dip or teat spray to avoid contamination of milk. Teats should then be dried with single-service towels. Use proper procedures for udder washing or pre-dipping.

Post-Milk Spraying or Dipping Directions

Post-milk spraying: Using fresh Lely Quaress Barrier, spray or dip the full-length of each teat. Do not wipe. Allow to air dry. Do not turn cows out in freezing weather until the product is completely dry.

Expanded Usage: When freshening cows, begin spraying or dipping teats twice daily for about 10 days before calving.

PRECAUTION: Lely Quaress Barrier is not intended to cure or help the healing of chapped or irritated teats. As with any germicide, irritation or sensitization may occur in sensitive animals. In case of teat irritation or chapping, have the condition examined and, if necessary, treated by a veterinarian.

READ SAFETY DATA SHEET (SDS) BEFORE USING THIS PRODUCT

Lely Quaress Barrier

· Ayuda a evitar la proliferación de organismos que pueden causar mastitis

INSTRUCCIONES

Lely Quaress Barrier está diseñada para usarse con los sistemas de ordeño robótico Lely.

IMPORTANTE: No mezcle con agua, otros selladores de pezones u otros productos a menos que se especifique en las instrucciones de uso del producto. Si se transfiere de este contenedor a cualquier otro, asegúrese de que el otro contenedor esté completamente limpio y que esté correctamente etiquetado.

Instrucciones de pre-ordeño/preparación para sistema de ordeño robótico

Pre-ordeño/preparación: Cuando se utilicen con el sistema de ordeño robótico Lely, los pezones deben prepararse de acuerdo con las recomendaciones de Lely, utilizando el producto de limpieza, cepillo Aspri y el procedimiento adecuado.

Instrucciones de inmersión previo al ordeño

Pre-ordeño/preparación: Lave bien los pezones justo antes del próximo ordeño con una solución de lavado de ubres o selladores de pezones de pre-ordeño para evitar la contaminación de la leche. Posteriormente, los pezones deberán secarse con paños desechables o de uso único. Utilice los procedimientos adecuados para el lavado o pre-inmersión de las ubres.

Instrucciones de rocío o inmersión post-ordeño

Rocío post-ordeño: Usando Lely Quaress Barrier, rocíe o sumerja la totalidad de cada pezón y deje secar al aire. No exponga las vacas a climas helados hasta que el producto esté completamente seco.

Uso Extendido: Al refrescar vacas, comience a rociar o sumergir los pezones dos veces al día durante aproximadamente 10 días antes del parto.

PRECAUCIÓN: Lely Quaress Barrier no está pensado para curar ni ayudar a sanar los pezones agrietados o irritados. Como cualquier germicida, el producto puede causar irritación o sensibilización en los animales sensibles. Si los pezones están agrietados o irritados, encargue a un veterinario que examine la condición y la trate si es necesario.

MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS

NO ES PARA USO HUMANO

Atención

Solo de uso externo

Lavarse las manos cuidadosamente después de la manipulación.

Consultar a un médico si la persona se encuentra mal.

LEA LA FICHA DE DATOS DE SEGURIDAD ANTES DE USAR EL PRODUCTO
