

GENERAL SURGERY KIT- general surgery tray (kit)
Centurion Medical Products

General Surgery Kit

DESCRIPTION

This preparation is designed solely for parenteral use only after addition of drugs that require dilution or must be dissolved in an aqueous vehicle prior to injection. 0.9% Sodium Chloride Injection, USP is a sterile, non-pyrogenic isotonic solution of sodium chloride and water for injection. It contains no bacteriostat, antimicrobial agent or added buffer and is supplied only in single-dose containers to dilute or dissolve drugs for injection. The solution may contain hydrochloric acid and/or sodium hydroxide for pH adjustment. pH 5.0 (4.5 to 7.0). Sodium Chloride, USP is chemically designated NaCl, a white crystalline compound freely soluble in water.
